

Encountering The Holy in Creation Series

How to Extract Honey From a Bee Hive

With Beekeeper Emery Dann

Workshop:

Sunday, October 7, 2012, 2:00 - 5:00 p.m.

Location:

The Journey Center and Emery's nearby hives and extraction room.

Honey bees do not fill jars with honey just as cows do not fill gallon containers with milk. If you would like to see and participate in extracting honey and learn about the fascinating world of honey bees at your comfort level, please join us for this fascinating workshop.

Honey bees visit two million flowers to gather the nectar that they need to produce one pound of honey!

- Become a wise consumer by learning how honey is made and processed from start to finish.
- Learn the amazing health benefits of raw, unheated, and unfiltered honey.

Cost: \$20.

*Register on our website
(www.journeycenter.org) or by calling
the Journey Center at 578-2121.*

Facilitated by Emery Dann, owner of Skyline Honey and past President of the Sonoma County Beekeepers Association. He mentors beekeepers, manages hives and has a wealth of bee experience to entertain and help you explore the world's hardest working, most amazing insect!
